

# ELITE MEDICAL SUPPORT SERVICES

*Your Strategic Partner in Employer Health Solutions*

Elite Medical gives employers a strategic advantage by simplifying the path to high-quality onsite and shared clinic solutions. We combine market expertise, operational excellence, and data driven planning to support every phase of your journey—from education and assessment to development, launch, and continuous improvement. With our concierge approach, you gain a trusted partner dedicated to helping your organization improve employee health, strengthen engagement, and maximize longterm value.

## OUR CONCIERGE LEVEL SUPPORT SERVICES

### Educational Support

Provide timely insights on industry trends and emerging care models, helping organizations understand options for employee health solutions.

### Population Health Management

Assess workforce needs and coordinate biometric screenings and health risk assessments to guide employer health strategy and planning.

### Organizational Assessments

Gather and analyze data on employee health, goals, and service needs to build a clear, evidence-based business case for onsite clinic adoption.

### Stakeholder Engagement

Develop tailored presentations and supporting materials to educate leadership on the value, impact, and longterm benefits of onsite clinics.

### Partner Development

Identify and engage compatible organizations to explore strategic shared clinic partnerships that enhance value and reduce overall costs.

### Site Identification

Analyze workforce demographics and location data to determine the optimal clinic site for employers and any potential partner organizations.

### Clinic Development

Collaborate with commercial real estate experts to identify, evaluate, and negotiate suitable locations for the development of a new clinic.

### Project Management

Lead the full implementation process, coordinating all work streams required to design, launch, and operationalize a highperforming clinic.

### Clinic Promotion

Support internal communication and marketing efforts to drive awareness, engagement, and sustained employee utilization of the clinic.
