

THE FUTURE OF HEALTHCARE STARTS WHERE PEOPLE WORK

Innovate Healthcare Solutions for Employers

WHAT IF YOUR HEALTHCARE STRATEGY ACTUALLY HELPED YOUR PEOPLE?

U.S. employers face rising costs and diminishing returns. Premiums are rising 6–8% annually with no end in sight. Average annual costs of \$17,500 per employee and \$24,000 per family are simply not sustainable. Traditional healthcare is reactive, inefficient, and hard to reach for most of your workers.

Employees routinely delay or avoid care based on struggles with access, long wait times, or out-of-pocket costs. And when they do go, it's often an urgent care or ER visit that could've been handled in 10 minutes at the right clinic.

That means more high-cost claims. More absenteeism. More dissatisfaction.

Elite Medical's employer sponsored clinics change the story:

- Same-day or next-day care
- Urgent care, primary care, and preventive care
- Typical patient wait times are less than 10-minutes
- Average satisfaction scores of 90%
- 2:1 ROIs or better

This isn't just better care—it's better business. Let's build a solution your people will actually use.

TRANSFORMING HEALTHCARE COSTS INTO STRATEGIC VALUE.

Elite Medical builds concierge-style, comprehensive healthcare clinics and wellness programs that drive productivity, elevate employee satisfaction, and offer measurable ROI – transitioning your healthcare expenditures from a cost center into a strategic investment. Our innovative healthcare solutions remove barriers by bringing high-quality care to your employees when and where they need it.

Our Delivery Models

EXCLUSIVE CLINICS

An exclusive-use clinic is a private health center located at or near your workplace, dedicated solely to your employees and their families. Branded for your organization and tailored to your needs, these clinics deliver comprehensive services—from primary and urgent care to occupational health and wellness coaching—all under one roof.

SHARED CLINICS

A shared clinic model offers a semi-private healthcare solution conveniently located near multiple employers and shared among organizations. Ideal for small to mid-sized companies, this approach delivers the benefits of a dedicated clinic—enhanced access, comprehensive services, and cost efficiency—without the full financial commitment.

MOBILE PREVENTIVE HEALTH

Our mobile preventive health programs bring essential services directly to your job sites or offices—perfect for remote teams, smaller populations, or supplemental wellness initiatives. We handle everything, from on-site vaccination clinics and biometric screenings to health risk assessments and coaching sessions.

ONE SIZE NEVER FITS ALL. THAT'S WHY WE CUSTOMIZE EVERY CLINIC.

We provide concierge-style healthcare clinics and wellness programs that drive productivity, elevate employee satisfaction, and offer measurable ROI – transitioning your healthcare expenditures from a cost center into a strategic investment. Our innovative healthcare solutions remove barriers by bringing high-quality care to your employees when and where they need it.

Additional Contracted Service:

- Workers' Compensation
- Chiropractic Care
- Optometry
- Behavioral Health
- Physical Therapy
- Dentistry
- Imaging

EMPLOYER-SPONSORED CLINICS ARE NO LONGER A LEAP OF FAITH.

Investing in an onsite or near-site clinic isn't an expense. It's an investment—one that delivers measurable ROI, improved outcomes, and lasting workforce impact.

Across the country, employers of all sizes are seeing the payoff.

- 94% of employers with onsite clinics report a positive return on investment.
- Many achieve 2:1 to 3:1 ROI by reducing claims, ER visits, and specialist referrals.
- 95% see increased preventive care utilization, helping catch issues early and reduce chronic disease costs.
- Employees save an average of 2.6 hours per medical visit, cutting absenteeism and improving productivity.
Over 50% of eligible employees engage with their clinic in the first year.
- Patient satisfaction regularly exceeds 90%, boosting retention and morale.

These aren't just Elite Medical's numbers—they're the new industry standard.

Healthcare premiums continue to rise at 6-7% per year, and delays in access to care have reached 31 days or more in many regions. Every day you wait to act means:

- Higher Premiums
- More costly, late-stage care
- Declining Health Absenteeism

Waiting another year is not an option.

The business case is clear: employer-sponsored clinics reduce total healthcare spend, improve access to care, and elevate workforce performance.

Elite Medical helps you design, implement, and optimize a clinic strategy grounded in evidence, powered by outcomes, and tailored to your culture. We eliminate the guesswork, reduce the risk, and build programs that deliver.

NEAR-SITE EXCLUSIVE USE CLINIC.

Clinic established for all insured employees and their insured dependents.

CLIENT INFORMATION AND OPERATIONAL DETAILS	
Clinic Availability	Weekdays
Weekly Hours	58
Employees Covered	3500
Total Insured (with Dependents)	9500

CLIENT IMPACT & ROI

Within 6 months of opening, the near-site clinic achieved over 90% compaction of available appointments. The client realized nearly a 2:1 ROI on direct claim mitigation alone. The California Public School District approved its first expansion to 6 days per week, Monday through Saturday.

Within another 12 months (18 months from opening), an additional expansion increased operations from 40 to 58 hours per week and added a full-time practitioner on-site to assist with patient care needs.

METRICS	VALUES
Average Wait Time	4 mins
Direct Ambulatory Claim Mitigation	1.9:1 ROI
Patient Satisfaction Scores	4.85 / 5 Stars
Decrease in Outpatient Facility Visit Costs	7.40%
Decrease in Primary Care Paid Amount	3%
Decrease in ER Paid Amount	16.70%
Decrease in Annual Primary Care Visits	5.30%
Decrease in Annual Primary Care Services	4.90%
Decrease in Lab & Pathology Services	23.50%

WITH YOU AT EVERY STEP. FROM VISION TO LAUNCH—AND BEYOND.

Bringing a worksite clinic to life takes more than a good idea. It takes insight, partnership, and experienced execution. That's where Elite Medical comes in.

From early planning to long-term performance, we support employers with a full suite of services that simplify decision-making and accelerate results:

Strategic Support & Planning

- Educational Support: Share trends and care model insights to help evaluate clinic options.
- Organizational Assessments: Gather health, utilization, and workforce data to build a compelling business case.
- Population Health Management: Coordinate screenings and risk assessments to shape strategy.
- Stakeholder Engagement: Develop customized presentations to align leadership and drive consensus.

Site Development & Implementation

- Site Identification: Analyze workforce and location data to select the ideal clinic site.
- Partner Development: Explore shared clinic models and identify strategic co-location opportunities.
- Clinic Development: Work with real estate experts to identify, design, and negotiate ideal spaces.
- Project Management: Oversee the entire build, launch, and clinic operationalization process.

Clinic Support and Utilization Management

- Promotion: Support internal marketing to drive employee awareness and utilization.
- Analytics: Provide outcome data, utilization trends, and continuous improvement reporting.

We don't just build clinics. We build long-term value.

LET'S BUILD A HEALTHIER FUTURE FOR YOUR WORKFORCE.

Elite Medical redefines workplace healthcare by combining personalized attention, integrated services, and flexible models. We deliver care that feels high-touch and accessible, without the high cost—creating solutions employers trust and employees truly value.

Whether you're exploring onsite care for the first time or looking to start your journey with vaccinations, biometric screenings, or health risk assessments, we are here to help.

- Schedule Onsite Event (e.g. biometric screening/HRAs)
- Complete a Clinic Readiness Assessment.
- Complete a Clinic ROI Calculator.
- Request a Quote.
